Title : Oracle Database 11g Essentials

Vendors : Oracle

Version : DEMO

1. Which two statements are true regarding the usage of tools in administering an Oracle database?

(Choose two.)

- A. Oracle Net Manager: configure a new or existing listener
- B. Data Pump: transfer of data from one database to another
- C. SQL*Loader: load data from an Oracle database to an external file
- D. Database Upgrade Assistant: upgrade only single-instance databases
- E. Database Configuration Assistant (DBCA): create new database user in an existing database

Answer: A, B

2. The DBA of your database informs you that the Oracle instance has started. What does this imply?

- A. Users can access the data in the database.
- B. Only the SGA has been allocated for the database.
- C. Only the background and user processes are running.
- D. Memory areas have been allocated and background processes have been started.

Answer: D

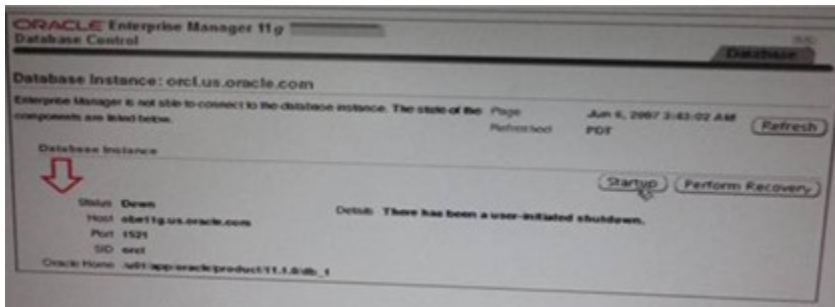

3. You issue the following command as a DBA: SQL>SHUTDOWN

What would be the outcome of the above command?

- A. It causes the instance to abort.
- B. It waits for all sessions to disconnect.
- C. It rolls back the current transactions and disconnects all sessions.
- D. It waits for the current transaction in each session to complete before disconnecting the sessions.

Answer: B

4. View the exhibit.

Which actions would be performed and in what sequence by clicking the Startup button?

- 1) Control file is read.
- 2) Memory is allocated.
- 3) Background processes are started.
- 4) Initialization parameter file is read.
- 5) Redo log files and data files are opened.

- A. 2, 3, 1
- B. 4, 1, 5
- C. 1, 5, 4, 2
- D. 4, 2, 3, 1, 5
- E. 3, 2, 4, 1, 5

Answer: D

5. Which two statements are true regarding consistent backups? (Choose two)

- A. Database can be opened immediately after the restore operation.
- B. Database can be opened only after the restore and recovery operations.
- C. Consistent backups can be taken only when the instance is running and the database is closed.
- D. Consistent backups can be taken only when the instance is shut down and the database is closed.
- E. Consistent backup are taken before the changes in the online redo log files have been applied to the data files.

Answer: A, D
